

We acknowledge that there is a significant difference in the way in which young people are experiencing careers education during this challenging time and our bespoke guides for students and parents/guardians will offer support in navigating this ever-changing situation.

To further support young people through this period of transition, in collaboration with Learn Live, we have created an 'on-demand' virtual event where young people can hear directly from employers and apprenticeship providers about the opportunities available to them. This is available to access now, please contact us for further information.

All Colleges have gone virtual, keep checking the relevant websites for event days & information.

What we have planned this term for our young people:

EDT Industrial Cadets week 23rd November, this week promises to be a jam-packed week with insight into the world of STEM and the career opportunities available for students. The week will include STE(A)M activities, information and advice, insights from placement students, apprentices and graduates, virtual tours from our partners, as well as live Q&A sessions with established STEM professionals.

Nelson and Colne College Year 11 Assembly, 25th November. We will be welcoming one of our local Colleges into CCA, staff from N&C will be giving post 16 information to our young people and will be available to answer any questions they may have.

OPUS, Online Work Experience Tours, December. Working alongside one of our partners, OPUS, we will be delivering online work experiences and virtual tours of the work place to our students.
