For the attention of all Parents and Carers:

We have been asked to raise awareness by the police following a serious incident in our community.

Last night a young female was attacked in Scott Park. Police believe that this was an isolated incident but that members of the public should be cautious in the area around Manchester Road and Coal Clough Lane.

The Crime Scene is being staffed and we would urge our pupils, families and carers to stay away from the scene and the area around Scott Park.

There will be an extra presence from police officers during this time and a Reassurance Plan Team is in place to support the local community after this tragic incident.

If you have any concerns or information please call 101 or if you have any urgent concerns please call 999.

If you have any concerns for your child and you wish to discuss these with school you can access contact details [here](#)
