

## Mayor of Burnley visits Coal Clough Academy

THE Mayor of Burnley attended our MacMillan coffee morning on Friday and it was a great success for our school.

It was a proud moment for our students as they interacted with the mayor and their peers, showing an excellent and mature attitude.

Staff and students alongside The Mayor

They were all excellent at baking and putting together their cake stalls in the marketplace and managed to raise cash for the cancer charity.

The event was organized by the Prince's Trust Community Action

Group, under Alice Walter's supervision and was a fantastic morning with lots of interaction from all of the students.

We also had a Bake Off between our staff members with the winning prize going to Farooq for his bright

yellow Lamborghini cake. Callum Plane was the student category winner with his delicious chocolate cake decorated with Maltesers.

Some of the additional cakes and cupcakes were donated to the Elizabeth Street Project—a hostel for the homeless in Burnley.

A big thank you to all staff and students who got involved to make it so fantastic.

Head over to Twitter to see the winning designs!

Winner: Farooq

## Our Students cook up a tasty dish - Jamie Oliver style

ANOTHER great event for our students who took part in the Ministry of Food cooking course at Blackburn Youth Zone.

The Prince's Trust Teamwork students, Year 9, 10 and 11 boys and girls from our PE and Sports Science classes all took to the Youth Zone to attend the Blackburn Youth Zone Partnership Programme—which has a focus on fitness and healthy eating.

Our KS4 students went to participate in activities such as basketball, football and other health related-fitness classes - during the time of what would be their normal PE class.

Combined with this and the Jamie Oliver-inspired Ministry of Food Course each one aims to improve their health and wellbeing to provide them with excellent well-being skills going forward to the future.

Results of the Ministry of Food

## Fire Station Visit

BOYS from year 9 and 10 also visited Blackburn Fire Station to gain experience and get some information on how to be a firefighter.

The visit gave students an insight to a potential career as a firefighter as well as gaining understanding of our public services.
